*Dredging & Marine Consultants, LLC (DMC) working as a sub-consultant to Quentin Hampton and Associates, Inc. assisted the City of New Smyrna with assessing and designing the repair of the failing bulkhead at Riverside Park. This park is the center of the community and plays host to countless art festivals, concerts, fishing tournaments, a water taxi, etc. Project tasks included an existing structure assessment and corresponding report, City staff and stakeholder consensus building, construction cost estimation, FIND grant application assistance, and design and permitting.*

### Key Elements

- Existing Structure Evaluation Report
- Repair Recommendations
- Cost Estimation of Repairs
- Engineering and Design
- FIND Grant Writing Assistance
- Water Taxi Landing
- Environmental Resource Permitting through FDEP, USACOE and Volusia County
- Sovereign Submerged Lands Lease Acquisition
- Construction Engineering Inspection Assistance

### Project Status

Project Start: June 2009  
Project End: Completed 2012  
Engineering Fees: \$93,200  
Construction Cost: \$950,000
